Journal Hijacking: A rising threat to Scholarly Publishing / Scientific Community

Mehrdad Jalalian, M.D.
Mehr Publishing
Does anyone know of any ISI journals that respond quickly?

Most journals respond in around 6 - 12 months. I am looking for a journal in the field of Computer Vision, Pattern Recognition or Image Processing which have a short time response.

TOPICS

- Academic Journals
- Computer Vision
- Image Processing
- Machine Vision
- Pattern Recognition

Aug 18, 2013
Seeking for ISI journal with quick responding. | LinkedIn
https://www.linkedin.com/.../Seeking-ISI-journal-quick-respon...
May 17, 2013 - I am looking for an ISI journal in subject of Image Processing. I wrote something ... You may try "Multimedia Systems" of Springer publications. Mohamed E. ... After getting the first answer, the revision process is too fast. Felipe.

Hi,

Your Search for high-quality article writing ends here.

Have you always been looking for great content writing solutions? If yes, then your search ends here. We specialize in providing quality and most advanced article writing solutions.

Be it SEO article writing, Website article writing, Blog writing or Article marketing, our team of article writing can help you to the fullest.

If you are also looking for a great lucrative business, here’s your chance to partner with us and become an article writing reseller.

We offer a wide range of article writing reseller plans via which you can go ahead and start-up with a lucrative business.

Through these reseller packages you can offer ghost writer solutions and provide customers and vendors with all types of article writing solutions.

Article Writing Features:

• Assured Quality
• Plagiarism Free Article
• In-depth Knowledge of Subject
• Focus on Client Requirements
• Lead Generating Article

I’d be happy to send some of our Past work details, testimonials, Writing Samples, affordable quotation and Service Packages with best offer.

You can get more details. Kindly revert back if you are interested.

Best Regards
David
Business Development Manager

Note: If you are not interested then you can reply with a simple “NO”, We will never contact you again.
We make publication easy so that you can focus on research.

has helped thousands of international researchers to eliminate language barriers and get their work published.

Our Services

A complete solution to prepare your work for publication
Publish FAST

Publishing your article does not have to take so long!

Let’s beat the “publish or perish” system! You have an academic article? Let us help you publish it in:
- Science Citation Index
- Social Sciences Citation Index
- Arts and Humanities Citation Index
- Scopus

Editors of over two hundred indexed academic journals are waiting to help you publish your article!
Publishing in the leading citation indices may be daunting...

Let's face it! Publishing an academic article in those journals which are indexed by Science Citation Index (SCI)*, Social Sciences Citation Index (SSCI)*, Arts and Humanities Citation Index (AHCJ)* and Scopus* is not easy. It is known that these journals receive an enormous volume of submissions, which slows down their peer-review processes and considerably reduces their acceptance rates. It is not uncommon for many scholars to wait for months, if not years, only to receive an outright desktop rejection for their articles. PublishFast® has been established by a group of scholars from leading research institutes and universities across the UK to expedite the academic publication procedures for their colleagues.

With PublishFast® you can now fast-track your publications...

PublishFast® is a confidential academic service which helps you get a VIP treatment from the editors of a selection of top-quality journals which are indexed by Science Citation Index (SCI)*, Social Sciences Citation Index (SSCI)*, Arts and Humanities Citation Index (AHCJ)* and Scopus*. PublishFast® is not affiliated with any academic journal or any academic indices. It is a consultancy service enabling authors to have their articles peer-reviewed on a fast-track basis in some of the journals. By submitting your articles directly to PublishFast®, you will avoid endless delays and rejections, and will have the privilege of publishing your articles in your desired outlets earlier than your peers.
Comments

Lecturer
(Wednesday, February 19 14 10:44 am GMT)

Excellent service! I just got my second SCI publication.

X
(Friday, February 21 14 03:03 pm GMT)

I submitted two articles, one got rejected after 2 days, other one got accepted in 4 days. %50 success rate is not bad. Cost me $400 for one article which is fine. Journal is a mediocre UK engineering journal covered by Scopus and SCI as promised and the editor himself contacted me for corrections. I will use this again. It's better than waiting forever.
Discover how some researchers manage to publish in top journals...

PublishFast® is probably the best kept secret among many prolific researchers in the academic world for years! It has consistently helped hundreds of authors publish their articles in the selected journals which are indexed by Science Citation Index (SCI)*, Social Sciences Citation Index (SSCI)*, Arts and Humanities Citation Index (AHCI)* and Scopus*. PublishFast® forwards your article only to those partner editors who have agreed to review submitted articles on a fast-track basis, expediting the total publication process dramatically with a remarkably higher acceptance rate.

Multidisciplinary ISI Journal in All Fields of Sciences

Latest Impact Factor: 0.267

Wulfenia (ISSN: 1561-882X) is a multi-disciplinary, peer-reviewed international ISI journal for publication of novel ideas, state-of-the-art research results and fundamental advances in all aspects of theoretical and applied topics in science and engineering including areas in natural and social sciences. The objective of the Wulfenia is to serve a better understanding between the researchers and practitioners from academia and industry. The paper submitted to Wulfenia should describe original and previously unpublished work, not currently under review by another conference, workshop or journal. However, authors can submit the extended version of conference papers. Papers for publication are selected through peer review to ensure originality, relevance, and suitability. Upon preliminary evaluation by the Editorial Board, the papers are sent to two referees (experts in respective fields) for evaluation. The decision of the Editor-in-Chief to publish a paper in concurrence with referee(s) opinion is considered final.

Submit Your Article Here  Paper Template

Wulfenia Sidebar Menu

Submission Guide
Manuscripts submitted for consideration to the journal must conform to the requirements that will facilitate preparation of the article for publication.

Editorial Board
The international editorial board is headed by Professor Dr. Vienna S. Franz

General Policies
Papers that are published or held by the Journal may not be published elsewhere.

Peer Review Process
Papers will be sent to three peer reviewers for evaluation.

Recruitment
We welcome referees who would be willing to act as reviewers.

RESEARCH-TECHNOLOGY MANAGEMENT (RTM) is an international scholarly refereed research journal which aims to promote the theory and practice of sciences, technology, innovation, engineering and management.

All submitted manuscripts are subject to peer review and editorial approval. Articles will be sent to at least three reviewers. Sometimes, the reviewers are masked as to the identity of the authors and their affiliation.

Authors must submit manuscripts electronically via the Journal’s Web-based submission system and use the Journal’s Web site; submissions will be accepted by e-mail in case that you have problems with Journal’s Web Site.

<table>
<thead>
<tr>
<th>Abstract</th>
</tr>
</thead>
<tbody>
<tr>
<td>Seven variants of corn grit (K) and oat bran (O) mixture with the proportion ranging from K80:A20 to D20:O80 were extrusion-cooked. The changes in chemical composition of extrudates compared to the initial (not processed) mixtures concerned mainly crude fibre, ether extract and nitrogen-free-extract. Extrusion-cooking always reduced other extract content, but the extent of the changes depended significantly on the K to O proportion, and ranged from nearly 90% in the case of mixture K80:O20 to less than 10% for K20:O80. A similar trend was observed for crude fibre. The increase in extrudates’ NFE content averaged 3.1% and was relatively lower in the case of mixtures with a dominant share of oat bran. Increasing the share of oat bran (up to at least 50%) significantly reduced the effect of extrusion-cooking on the water solubility of extrudates (WSI), but increased to some extent the content of structural components in dry matter, which – from a dietetic point of view – confirms a reason for adding oat bran to corn grit in the initial mixture.</td>

The purpose of this research was to examine the relationships between attachment styles and trait forgiveness in divorce-seeking women. This study was a descriptive correlation approach. Statistical community in this study included divorce-seeking women that centres were Tehran judicature institution. The sample consisted of 40 divorce-seeking women. This study was selected as were available. According to the research topic to gather required information from the families forgiveness scale (FFS), and Shaver-Hanau’s Adult Attachment Inventory scale. Also, in order to review data and analyze results of this study Pearson correlation method was used. The results confirmed that correlation between secure attachment style and forgiveness was positive and significant. The results also confirmed that correlation between avoidance attachment style and forgiveness was negative and significant. The result showed that women with secure attachment style easily forgive her husband. But women with avoidance attachment style dispositional unforgiving her husband.

<TAKING UP OF PREVENTIVE ACTION BY A STUDENT OVERWEIGHT AND OBESITY living>

A student is overweight and obese which makes a higher risk of developing long-term illnesses. The student is taking up preventive action to reduce weight gain and improve their overall health. The student's prevention plan includes adopting healthy eating habits, engaging in regular physical activity, and seeking professional guidance from a healthcare provider.
